of Commerce. Visit their web-
site at www.yadkinvalley.org
to see how the chamber can
help your business grow!

WORDPRESS

For under \$100 a year you can have a professional website with the user-friendly web software of WordPress. WordPress is the leading open-source (free) content management platform that is both a website and blog. It enables you to insert the original content and make ongoing changes to the content on your own.

This class gives you must have details for securing your domain name, choosing a graphics theme, and guidance for building your site. Students have access to instructional videos to support and add to the class instruction. You will also receive a list of recommended themes, plug-ins and widgets that allow you to customize and enhance your website.

Attendees should have a working knowledge of the internet and a web-based email account before arrival.

**Presenter: Martin
Brossman**
